You will be picked up at the hotel and driven to **Paracas** where you will board a speedboat to go to **Ballestas Islands**. On the way out to the Pacific Ocean, you pass by the National Reserve of Paracas which consists of land and sea. During a short photo stop, you will be able to take pictures of the figure of „**El Candelabro**“, etched into the side of a hill. Once you reach the islands, you have the chance to see animals in their natural environment. There are thousands of different birds, as well as **sea lions, cormorants, pelicans, and penguins** to take pictures.

****Remark:** Ballestas Islands are protected and not to be walked on. You will not leave the boat on this excursion but will go near enough to take good pictures of the animals. The length of the boat excursion is about 2 hours. The tour is shared with international travelers and accompanied by a bilingual Spanish/English-speaking guide. This tour will be done with an eco-friendly motorboat.

Optional: Nazca Lines overflight from Pisco (1h 30min + Transfers) - on a shared basis

Upon arrival at the airport of **Pisco**, embark onto an aircraft to fly over the mysterious **Nazca lines** (approx. 90min overflight). Located in the arid Peruvian coastal plain, some 400 km south of Lima, the geoglyphs of Nazca and the pampas of Jumana cover about **450 km²**. These lines, which were scratched on the surface of the ground between 500 B.C. and A.D. 500, are among archaeology's greatest enigmas because of their quantity, nature, size, and continuity. They have been designated a **UNESCO** World Heritage Site. The lines are a series of complex designs, some up to 300 meters long which can only be seen in their true dimension from the sky, from an altitude of at least 1,500 feet. Some of the figures that you will appreciate are the monkey, the spider, the Astronaut, the family, and the hummingbird.

****Remark:** Please note that due to the very limited availability of the flights, we always
